

# AMY CRAIG-WOOD

## Digital Designer

My main passions in life are photography, design and equestrian activities. I am extremely driven to succeed, having already set up my own web design and photography business for equestrians ensuring quality design and usability. I am now looking to work in a team and gain experience in industry.

Fc FinalCut Pro

Ps Photoshop

</> HTML + CSS

Graphic Design

Office suite

Film making

Lr Lightroom

UX design

Maya, 3D design

Mobile Design

Data Modelling

Photography

## Work History

### Nov 2015 – Current **Currys PC World**

Being a Christmas sales assistant I had to be able to fit in and learn my role quickly for the approaching busy period. I really enjoy working in the imaging department as I am able to share my knowledge of cameras and advise customers.

### July – Nov 2015 **Sainsburys**

Working in a local store I had to help manage all aspects of the shop from restocking the shelves, code checking, reducing and disposing of products as well as spending time on tills and helping customers with any requests all whilst providing the highest level of customer service. Teamwork was the biggest aspect of my role as there were only ever around 5 colleagues running the store we had to all get on well and motivate each other to complete all the day's tasks on time.

### July – Sept 2015 **Hedgefarm Equestrian**

Hedgefarm is a livery yard where a very high standard of care is provided for horses. Most of the time I worked along side one other person, we shared the tasks out and worked together to keep to the schedule, ensuring the horses got fed at the right time and all the tasks got completed. I also worked alone some days, there was a lot to do which quickly helped me improve my time managing skills, planning out what I had to do for the day and still ensuring everything was done to the highest standard whilst sticking to schedule.

### July 2012 **Work experience, PetDoctors**

After my GCSE's I did 5 days work experience at the veterinary surgery PetDoctors as previously to deciding to study Digital Design I was interested in studying veterinary medicine. This introduced me to the working environment and being part of a team.

## Education

### 2014 - 2018

#### **Brunel University**

Digital Design BSc

### 2012 - 2014

#### **Cranleigh School**

A-levels; Maths(B), Physics(C), Biology(D)
